Objective

It is to explore and learn from each work experience and organization to develop myself as a person and a student.

Leadership Experiences

Graphic Design & Content Creator for MetaBronx 2021 - Present

Metabronx teaches students graphic design skills and then provides them a platform to share their stories.

www.theglassfiles.com/stories

I write and create content on issues that affect the community. I share historical and global stories that are personal and meaningful to me on current events as well as personal interests like country music, poems, family stories, and other creative ideas. I train younger students on how to navigate the intricate internship application process and I'm part of the program manager.

Volunteer for SPEAKHIRE 2021- 2022

Non-profit organization that specializes in developing immigrant families to become leaders in the workforce.

speakhire.org

I help students with their remote learning and mentor them to be successful in their online classes.

Volunteer for Teen Outreach Program (TOP) at Crotona High School

Community outreach program to support local teens and provide activities and resources for them to get involved with their peers.

www.wcs.org

I write and record original stories for children that they can listen to at home with their families. I help with outreach activities in the community like cleaning up the local parks and creating and posting flyers about upcoming events for local teens.

Mentor for the Peer Group Connection (PGC) at Crotona High School

A teacher-run volunteer program that matches upper grades with younger students for networking and mentoring.

www.crotonaihs.org/for-family

In the PGC leaders program we create fun and interactive programs and activities for younger Crotona students using platforms like Kahoot, Padlet and others to share their ideas and feelings and build relationships with fellow students.

Intern for My bodega online

My Bodega Online is a company that has created a platform designed for wineries that accelerates online ordering and delivery services.

<http://www.mybodega.online>

In this work, a database consisting of general information about EBT stores / warehouses in the New York City metropolitan area was built, in which I had to use google maps to walk in different counties of New York and see which bodegas are on the list and which ones are not, just add them to the list or rank them. I even had to make calls to different bodegas to get essential information and see their behavior towards a customer.

Skills

- Bilingual (Spanish and English)
- Technology:
 - Proficient in Adobe Spark
 - Proficient Google Suite
- Storytelling: I have written for Glass Files and produced children's stories for Teen Outreach program.
- Public speaking: I recently presented to a class of 25+ students on my involvement in the PGC mentorship program.
- Overall, I am Christian, extremely studious and dedicated

About Me

Soy genuinamente creyente en Dios y me gusta escribir historias “Jugar con la imaginación y la realidad” . Actualmente participo en la organización llamada Meta Bronx en las que me dirijo a diferentes escuelas a hablar de mis experiencias y motivar a los estudiantes de esta generación “ A hacer lo que el 99% no hace”

Motivando a estudiantes que no tienen un inglés fluido en el que el lenguaje se nos hace una barrera sin embargo utilizar esa debilidad como un trampolín y desafiarte a ti mismo , es algo que me ha ayudado en mi crecimiento personal.
