EDUCATION

Ithaca College | Ithaca, NY
Bachelor of Science in Health Science

Graduated May 2026

EXPERIENCE

Level 4 CNYMRC | Ithaca, NY
Volunteer

Fall 2025

- Managed the Flu POD on campus with 520 students and staff vaccinated
- Recorded the length of the vaccination for people from the entrance to the exit
- Provided information to the mental health screening and guidance to the provider for further inquiry

Platinum Home Care | Brooklyn, New York
Home Health Aide

July 2023 – April 2025

- Completed 75 hours of training focused on assisting patients at home, emphasizing professionalism in the relationship between patients and home health aides.
- Provided valuable support to patients in Activities of Daily Living, including grocery shopping and house cleaning, ensuring a comfortable and well-maintained living environment.
- Played a crucial role in patient care by reminding individuals of medication schedules and upcoming doctor office visits, contributing to their overall well-being.

Woodhull Community Care (NYC Health+ Hospital)
Case Management Intern

July 2024 – Aug.2024

- Created a condensed training for case management positions such as how to use Epic, and VMware to assess patient eligibility for Home Health Aide in the Bronx, Brooklyn, Manhattan, and Queens.
- Helped with the inventory of community care by classifying shirts and tote bags into a giveaway for the community.

PrIMES mentorship
(mentee)

Jan.2024-Aug.2024

Completed weekly meetings with my mentor and spoke about each week's module in preparation for medical school admission

- Attended different meetings tailed on mentee learning about medical school decision-making and meet different professionals in the medical field.

North Manhattan Eye Center | New York, NY
Intern and Physician Shadowing

June 2023 – Aug.2023

- Guided patients to examination rooms, engaging with them to understand worries and background information, gaining valuable insights into their perspectives.
- Participated in brainstorming sessions centered around improving the work environment, gaining foresight into expectations and challenges as a future physician.

- Interacted with physicians and staff, learning about equipment roles and the diagnostic process, enhancing knowledge on how diagnoses are made.
- Strengthened observational and listening skills by actively participating in patient cases, identifying patterns and recognizing unusual circumstances that may lead to the diagnosis of eye pathology.

College Access: Research & Action |Bronx, NYC

July 2021 – June 2022

- Participated in extensive training focused on college and career access, acquiring valuable insights and knowledge to facilitate students' access to post-secondary opportunities.
- Provided one-on-one assistance and advisory group support to peers, aiding in their college and financial aid applications.
- Collaborated with staff to support the planning and execution of college and career events, contributing to the overall success of these initiatives.

RESEARCH

Microbiology Research Project | Ithaca, NY

September 2023 – May 2024

- In collaboration with Professor Kari Brossard, studied the antimicrobial resistance in the bacterial DNA of monkey feces and the possible implications on human health and antibiotic development.
- Acquired proficiency in pipetting and utilizing a microcentrifuge for DNA experiments, conducted PCR and DNA extraction, ran gel electrophoresis for PCR, and demonstrated expertise in counting bacteria colonies in petri dishes.
